

## Technical Rider 2016 DAS NEUE HAUS

We assume that there is a well sized PA system provided for the concert room with sufficient power to supply a clean and undistorted sound. An experienced engineer is required!

#### Requirements:

- at least 2 multieffects ( PCM81, TC.....)
- splits in the channels 10+11 would be nice, split in channel 3 is important!
- compressors in the voices

#### Monitors:

- It is important that we all have our own monitor speakers with separate mixes.
